

MEMBERSHIP TERMS OF REFERENCE

T2EVOLVE Stakeholder Community

Background

T2EVOLVE is a breakthrough alliance of academic and industry leaders in cancer immunotherapy under the European Union's Innovative Medicines Initiative (IMI).

Vision: accelerate development and improve access to CAR and TCR-engineered T-cell therapy

Mission: to build a sustainable innovation ecosystem to support the development of advanced engineered T-cell therapies where every cancer patient in need has access to safe and effective T-cell products in Europe

To reduce barriers that are slowing down development and are limiting access to engineered T-cell therapies in Europe, the T2EVOLVE consortium will seek to achieve six objectives:

- optimization of pre-clinical models → for the best safety and efficacy prediction
- definition of gold standard analytical methods pre- and post-engineered T-cell infusion → for the top-quality patient monitoring
- selection of optimal lymphodepletion regimens → for optimal therapeutic response
- production of GMP guidance and establishment of standard product profiles → to minimize unpredictable variables
- integration of patient stakeholders into the R&D life cycle of engineered T-cell therapy through co-creation of innovative tools → to support patients through the care continuum
- patient access expansion → all European patients benefit from needed cancer therapies

The T2EVOLVE stakeholder community acts as a conduit to create a thriving innovation ecosystem.

More information about T2EVOLVE can be found at www.t2evolve.com.

Stakeholder Community

This document establishes the process for an organisation or individual to become a member of the T2EVOLVE stakeholder community.

A member of the stakeholder community is not a T2EVOLVE project partner. Only T2EVOLVE partners possess specific rights and responsibilities related to the T2EVOLVE project. T2EVOLVE partners establish and govern its stakeholder community and participate in related activities with members.

The T2EVOLVE stakeholder community can include: partners, organisational members (through organisational representatives) and individual members.

Governance

The T2EVOLVE Executive Committee manages the stakeholder community. Partner BioSci Consulting is the dedicated point of contact for members.

All requests or recommendations by members are welcome and should be sent to the point of contact. Adoption of requests or recommendations lies at the discretion of the T2EVOLVE Executive Committee.

Members that act in such a way as to damage the interests or reputation of the T2EVOLVE

MEMBERSHIP TERMS OF REFERENCE

T2EVOLVE Stakeholder Community

project, may be removed from membership of the T2EVOLVE stakeholder community by the T2EVOLVE Executive Committee.

A member may resign at any time by sending a written notice to the point of contact. The same process applies to any changes in membership.

The membership terms of reference are subject to change. Members will be informed of changes in a timely manner by the point of contact.

This document is not intended to and does not create any legally binding financial or other obligation on the part of the member (organization/individual), the T2EVOLVE project or between the member and the T2EVOLVE project.

Roles & Responsibilities of Members

Members can be organisations, either not-for-profit or for-profit, or individuals in fields—such as healthcare, public health, biomedical and other research, information and life sciences, oncology, and patient advocacy—that subscribe to the goals of the T2EVOLVE project.

Organisational Members, may designate representatives, from its organisation, to represent itself in T2EVOLVE stakeholder community activities.

Member benefits include:

- access to a member only platform and tools;
- networking opportunities;

- awareness of the project (updates, seminars, dissemination activities);
- consultations;
- multistakeholder interactions (e.g. roundtables, focus groups);
- member only events;
- member developed sub-projects in alignment with T2EVOLVE roadmap;
- and collaboration on project incubators.

Members agree to receive communication related to the T2EVOLVE project and its stakeholder community.

Participation in stakeholder community activities is voluntary. Activities will be effected progressively when deemed feasible by the T2EVOLVE Executive Committee.

Consent Process

Membership to the T2EVOLVE stakeholder community (organisational or individual) will be confirmed upon completion of the online [consent form](#) (by each organisational representative or individual member) which is required for GDPR compliance.

Following completion of the consent form, access will be granted to the T2EVOLVE stakeholder community platform. One organisational representative is required to provide a short profile of their organisation (~1 paragraph).
